PROFESSIONAL SUMMARY

Full-Stack Software Engineer with production experience building scalable web applications across both frontend and backend. Skilled in React.js, TypeScript, Python, Django, GraphQL, PostgreSQL, and FastAPI with hands-on experience designing business workflows, RBAC systems, multi-tenant architectures, and REST/GraphQL APIs. Passionate about building maintainable software, solving production issues, and delivering reliable user experiences.

Full-Stack Software Engineer with strong experience building scalable, production-grade systems from scratch. Specialized in React.js, TypeScript, Django, and GraphQL. Experienced in designing multi-tenant architectures, RBAC systems, and complex business workflows with real-world production exposure.

EXPERIENCE

WTDcare	01/2025 – 06/2026
Full Stack Software Engineer	Cairo, Egypt
• Built and scaled a multi-tenant healthcare Business Dashboard with strict data isolation and RBAC architecture. • Designed role and permission management using Django Groups and RBAC principles. • Developed backend services using Django, FastAPI, GraphQL, REST APIs, and PostgreSQL. • Implemented GraphQL pagination, resolver optimization, and business workflow logic. • Designed order lifecycle systems including scheduling, refunds, quotations, and payouts. • Built reusable survey systems and validation architecture. • Implemented push notification workflows. • Developed React.js, TypeScript, Redux Toolkit, and Tailwind CSS frontend features. • Integrated Sentry, GA4, and Mixpanel.	

- Investigated production issues, participated in architecture discussions, and reviewed pull requests.

EDUCATION		
Pharaohs Institute		2023
Bachelor's Degree		Cairo
Grade: Very Good		

TECHNICAL SKILLS		
Frontend	Backend	DevOps
React.js, TypeScript, Redux Toolkit, Tailwind CSS	Python, Django, FastAPI, GraphQL, REST APIs, PostgreSQL, Pydantic	Docker, Kubernetes, Git, GitHub Actions
Concepts	Tools	
RBAC, Multi-Tenant Systems, API Design, System Design, Design Patterns	Sentry, Google Analytics 4, Mixpanel	

PROJECTS
-Vokabl AI Teacher Built an AI-powered English tutor using FastAPI, Ollama, Docker, Kubernetes, prompt engineering, and REST APIs.
-WTDcare Business Dashboard Developed a multi-tenant healthcare dashboard with RBAC and GraphQL.
-Internal Order Analytics Dashboard Designed dashboards for operational KPIs.
-E-Commerce Platform Built a full-stack e-commerce application.
-IMDb Simulation App Developed a responsive movie discovery platform
